WÉO

WIFI HANDHELD ORDER TERMINAL

Wéo is the touchscreen handheld order terminal from POSLIGNE® used in bars, restaurants and retail outlets to speed up service and increase efficiency.

Wéo by POSLIGNE® is a handheld touchscreen order terminal designed for quick service retail, catering, hospitality and hotel applications.

This comfortably sized and weighted device runs Windows CE, has an excellent WIFI range, superb battery life and a large high-resolution screen which can be used in landscape or portrait format.

Wéo is also highly impact-resistant, fully waterproof (IP 67 standard) and dust-proof.

Several Wéo terminals can be linked to a single point of sale system in a bar or restaurant, providing portable till functionality.

WÉO by POSLIGNE®
